

# GO ORANGE FOR PWS AWARENESS

Colour the balloons for Prader Willi Syndrome Awareness Day!

Our logo has three balloons.

They show that people with Prader-Willi syndrome are supported through life.

Each balloon means a stage of life:

Childhood – we are children and growing up.

Teen years – we learn and change as we grow.

Adulthood – we are supported as grown-ups too.

Together, the balloons show: We grow and change through life. We learn new things at every age. We are cared for and supported.

Thank you for going orange and helping us raise awareness of PWS.
